

UIViewController

<UITextViewDelegate>

PlainPostViewController

```
classDiagram
    class UIViewController
    class PlainPostViewController
    class UITextViewDelegate
    PlainPostViewController --|> UIViewController
    PlainPostViewController --> UITextViewDelegate
```

The diagram illustrates a class hierarchy and protocol implementation. At the top, two boxes represent the superclass 'UIViewController' and the protocol '<UITextViewDelegate>'. Below them, a box represents the subclass 'PlainPostViewController'. A horizontal line with upward-pointing arrows at both ends connects the two top boxes. A vertical line descends from the center of this horizontal line to the top of the 'PlainPostViewController' box, indicating inheritance. Additionally, a separate vertical line descends from the right side of the horizontal line to the 'PlainPostViewController' box, indicating that it implements the 'UITextViewDelegate' protocol.
